

Arm can be removed for transport

Total Height 116cm

77 cm

Depth 64cm

Width 55 cm plus 2cm axis for lever

45 cm

Foot will be removed for transport but will come in the same box

Measures of wooden transport case.  
**ca 115kg complete. 64 x 74 x 108cm.**

An optional backup computer will be transported in the hand luggage by the accompanying artist.

Normally the **set up** can be done by anybody who has basic technical skills within a few hours.

- Unpacking and putting a few metal parts together , connecting the computer , video, audio...done!

In case of an unforeseen problem caused by transport or other an expert in electronics / computers could help, lead by us via telephone etc. For security reasons we recommend to do the set up at least 48 hours before presentation.
